

Enrichment Program - FAQ

Are the prices per month or week?

All pricing is based per week. Full and half-week options available.

If we do this are we committed for the entire year or can we stop at any time?

As of right now, you can enroll weekly and stop at any time.

Do the students have to wear masks?

As of right now the students will only wear masks during transitions where they may be exposed to anyone outside of their classroom group. Desks will be placed 6 feet apart. Socially distant games and activities will be in the curriculum for the time periods during the day when their school is not providing virtual instruction.

What if school ends up going back full time and we already paid?

If school resumes in-person and parents have already paid for that week, a full refund will be issued.

Will there be before care/after care and any other options?

Yes we have a variety of additional options such as before care (7am - 9am), after care (3pm - 6pm) as well as a variety of lessons and instructions for after 3pm that students can add to their package.

Will you provide services for my child with an IEP?

The NAC is not an educational provider as a public school or a private school. As a result, the NAC will not be able to implement IEPs or 504 plans. We will accept children with an IEP and/or a 504 plan into the program provided that the parent either pays for or supplies anything that their child may need to implement the IEP and/or 504 plan for their child's special needs. If your child will receive services during our program please contact us prior as we will need paperwork completed prior. We encourage anyone and everyone to participate in our program during these difficult times

**How will the students be grouped?**

Students will be split up by School District then will be grouped by grade. If there are enough students with the same teacher, that are also in the same grade, they will then be grouped by teacher. Our hope is to make this experience as normal as possible for the students so they can still socialize with the same peers that they would in their school classroom.

When will you know the outline of their day?

Once the school's release a complete and thorough plan we will be able to finalize our daily schedule. Our goal is to have time for virtual learning and classwork as well as time for socialization and physical activities each day.

My child doesn't sit all day - what other activities will there be to do?

Our daily schedule will include everything from socially distant games to swimming and relay races! Staff will keep students engaged in physical activities everyday to ensure to help develop the whole student.

Who is watching the students all day? What are ratios?

Ratios will be based on grade and will range from 1:8 to 1:14. All staff has at least 6 years of professional experience in childcare and are preferred to have a degree in education however, this is not required.
